

# Milestone 3 presentation

Prototyping in LittleBigPlanet

By: Isak Anklew

# Introduction

- Prototyping + LittleBigPlanet = LOVE?
- Testing out the viability of LBP as a software platform
- Controller instead of keyboard

# Project goals

- Build simple prototypes
- Emphasis the relevance of prototyping

- **ULTIMATE GOAL**

Create a casual method to software prototype

# What have been done?

- Research
- Documenting progress on the blog
- Project plan, proposal and milestone 3 report delivered
- Started prototyping week 8

# Obstacles

- Small research setbacks
  - Had to come to some conclusions of my own
- Editing video material
  - Took more time out of the schedule

# Next up

- Continue to prototype
- 2-3 prototypes each week
- Catch all on video
- Write a final report
- Present the end results

# Q&A

- Ask away!

But remember, for every evil comment a Sackboy dies q.q
